

| | |
|-----------------|---|
| ID | 7 |
| Purpose | Allow employees to update availabilities |
| Set Up | An employee is logged in and is part of a business |
| Steps | 1. Navigate to the availabilities dashboard |
| | 2. Select "Edit" |
| | 3. Enter availabilities |
| Expected Result | The system allows the employee to update their availabilities; customers will see the new times when they attempt a booking |

| | |
|-----------------|---|
| ID | 8 |
| Purpose | Edit employees of companies |
| Set Up | A business has been created and the admin is logged in, there is at least one employee working for the business |
| Steps | 1. Navigate to the Business Dashboard |
| | 2. Select Edit Employees |
| | 3. Click the remove button |
| Expected Result | The employee is no longer associated with the business; when the employee logs in, they should not see the business; when customers make bookings with the business, they should not be able to book the employee |
