Week 4 Lab Acceptance Tests

s3717205 - Nathan Boc

User Story: **Add/Edit Employee**

ID:	1
Purpose:	Test the Add Employee with a non-existing employee username
Set Up:	Employee 'surname0001' does not exist in the system
Steps:	1. Login to website as an admin
	2. Navigate to the View All Employees page
	3. Select Add New Employee
	4. Enter 'surname0001' as username, other values for other fields
Expected Results:	System reports successful registration; New Employee added

ID:	2
Purpose:	Test the Add Employee with an existing employee username
Set Up:	Employee 'surname0001' exists in the system
Steps:	1. Login to website as an admin
	2. Navigate to the View All Employees page
	3. Select Add New Employee
	4. Enter 'surname0001' as username, other values for other fields
Expected Results:	System reports that username already exists; New Employee not added

ID:	3
Purpose:	Test the Edit Employee with a non-existing employee username
Set Up:	Employee 'surname0001' does not exist in the system
Steps:	1. Login to website as an admin
	2. Navigate to the View All Employees page
	3. Select employee 'surname0001'
	4. Select Edit Employee Details
	5. Enter new values for username and other fields
Expected Results:	Non-existing employee does not appear in the list of employees and cannot be selected to edit; Employee cannot be accessed

ID:	4
Purpose:	Test the Edit Employee with an existing employee username
Set Up:	Employee 'surname0001' exists in the system
Steps:	1. Login to website as an admin
	2. Navigate to the View All Employees page
	3. Select employee 'surname0001'
	4. Select Edit Employee Details
	5. Enter new values for username and other fields
Expected Results:	System reports successful edit; Employee details updated

User Story: **Add/Edit Employee Time Sheets**

ID:	5
Purpose:	Test the Add Employee Timesheets with existing username
Set Up:	Employee 'surname0001' exists in the system
Steps:	1. Login to website as an admin
	2. Navigate to the View Employee Timesheets page
	3. Select a date
	4. Select Add to Roster
	5. Enter username 'surname0001', values for shift start and end
Expected Result:	System reports success; Timesheet for employee added

ID:	6
Purpose:	Test the Add Employee Timesheets with a non-existing username
Set Up:	Employee 'surname0001' exists in the system
Steps:	1. Login to website as an admin
	2. Navigate to the View Employee Timesheets page
	3. Select a date
	4. Select Add to Roster
	5. Enter username 'surname0001', values for shift start and end
Expected Result:	System reports that username does not exist; Timesheet not added
